Sr. Louis, March 24th.-A freight train of fifteen cars was made up this morning and started over the Missouri Pacific tracks in the direction of Seventeenth street. Arriving at that point, the crowd called upon the engineer and fireman to leave their posts, which they did. The mob here soon became so dense that it was deemed advisable to clear the yards, and the police were summoned, and soon a force of about 150, commanded by the Chief of Police and all Captains, arrived at the scene. The and New York. The American Turf. New York, March 24th .- The Telegran ays: At Sheepshead Bay stabling accom-

The crowd was then ordered to disperse, and, upon their refusing to do so, the police made a charge upon them, hoping to drive them away without using their clubs. The latter alternative, however, became neces-sary. During the struggle which ensued, several of the strikers were badly beaten by the police, some of whom were in turn badly bruised from rocks thrown by the mob. After a brief fight the crowd dispersed and were driven from the yards.

Just after the treight train bad gotten away, a large portion of the police force. carrying a large portion of the police force, a mob numbering about 1,000 men made a rush for the machine shops of the Missouri Pacific, to take possession of them. The courage of the majority of them failed, and only about forty of them proceeded beyond half way and they soon abandoned

the idea and dispersed. TRAINS STOPPED ON THE MISSOURI PACIFIC Atchison (Kan.), March 24th.-The Missouri Pacific made two attempts this morning to send out freight trains over their oad, but failed. The first train succeeded without encountering any interference in running to a point about one mile from the Union depot, where a number of strikers boarded the cars, set the brakes, the engine was "killed," and the train brought back to the city by a switch engine. A second attempt was then made to start, this time under the protection of the City Marshal, Sheriff and a number of policemen. The train succeeded in getting as far as the city limits, but a short distance from there the strikers took control of it and brought it back to the yard. LAST PROBABLE.

It begins to look as if Congress would at last recognize its right and duty to interfere to prevent the destruction of the navigable rivers of California. The RECORD-UNION long ago urged that governmental interference ought to be invoked; that it is the duty of Congress to interpose an injunction to prevent the undoing of its work in removing obstructions from navigable streams. But we were told that nothing should be done until the State, or the people of the State, stopped hydraulic mining. We believed that the speedy way to the desired end, when Congress was not in session, was to secure an order from the War Department act tending to interfere with or destroy such work could be forbidden by the authority that ordered the work, and the ban could be enforced by all the power of the Government behind that department. We held later, that when Congress assen bled it should be importuned to do what the department neglected to do. But this along the whole line, "stop hydraulic mining first." Now, the RECORD-UNION never has admitted, nor will it, that the duty is incumbent upon the State alone to forbid and enforce the decree against the deposition of matter in our navigable rivers. The State should aid to that end but this journal's position has been that the Federal Government is in duty bound to lead in the good work. So, too, we have uniformly maintained that it was

upon the already overtaxed people of the Recently the Federal Government admitted these positions by bringing an action to enjoin certain parties who were making a cut across a bend of the river in order to shorten the stream, increase the power of the current, and prevent the threatened departure of the river through its bank at the extremity of the bend. We then pointed out that if it was the duty of the Government to prevent such infit the case of the Sacramento, Feather and Yuba rivers. If it passes, even as it put in due execution." is now phrased, we believe it will "fill the bill," but it will be better to make it affirmatively clear, and to include hydraulic mining waste, and we have reason to believe that this will be done, if not already accomplished. The Bayne bill, a synopsis of which has been furnished to his paper by the editor of the Sutter Farmer, he now

This is but stating a we should pass an earnest vote of thanks to the press of this State. truism, that the interest of the laborer resides in the ability of the employer to make the motion. I think the press have done us a great service, for which we cannot make his industry remunerative. The Star holds that the way out of all these difficulties is by frank conference between the that we can do, and it is justly and more epresentatives of the controversy, or the ubmission by arbitration of all such issues to fair men having access to all the facts. And this appears to be the burden of current thought at the East to-day, as ex- we all feel, even if we do not acknowlpressed through the columns of the journals of the Atlantic. We believe that there is altogether too much fear felt and expressed of the calamitous in the outcome of current labor agitations. EL DORADO MINES .- On Saturday last the workers at the mining claim in Coon Hollow let daylight through Sacramento Hill by tearing down the last piece of dirt that remained at the end of the wash on the Placerville side. There is now a clean cut through the hill about 130 feet deep, and a task begun thirty years ago has been accomplished. A noticeable result of the cut is the presence of a strong current of air continually sucking through the channel. The owners of the Sandstone claim out at Poverty Point are busy getting out forty tons of rock for milling purposes. It is to be run through Rulison & Likens' mill. From sample runs already made it is almost a certainty that this rock will run heavy with mineral, and if the run justifies expectations, five additional stamps will be added to the mill and a force of men put at work that will push things and make times lively at Poverty Point. Dan Wickham, one of the best known of El Dorado's old mine men and an expert machinist, left on Wednesday last for the Taylor mine, near Greenwood, where he will at once set men to work. In company with Mr. Roberts he has recently bonded this mile, which is said to be a valuable one, and it will at said to be a valuable one, and it will at once be put in trim for vigorous work early in the spring. There is a 500-foot shaft on the claim, and a complement of machinery necessary for the working of the claim. [Placerville Mountain Democrat.

Mystic Floral Festival at Auburn. EDS. RECORD-UNION: The ladies of Crystal Chapter, O. E. S., of Auburn, gave one of their select socials at Masonic Hall last Thursday evening. The hall was elaborately decorated with lovely flowers, roses and lilies vying with each other in beauty. The entertainment took the form of a floral festival, illustrative of the principles of the Order, and was eminently successful. The large assembly of guests were delighted with the grace of the participants The vessel was becalmed for many in the floral ceremonies and the singing and music accompanied. An elegant su per followed. The entertainment closed a tive Committee of the G. A. R., from the Ransas Department of the Grand Army, by the Sisters of the Mystic Star. C. M. Auburn, March 23, 1886.

\$5 BUYS A JEWEL" VAPOR STOVE!

Just the thing for hot weather, as it gives no heat, no smell, and is perfectly safe. One of these VAPOR STOVES will cook a meal for four persons, at the small cost of 2 cents; no wood to chop, no ashes to clean out, and everything lovely when you have a "JEWEL" VAPOR STOVE. At Residence, No. 407 K street, between Don't fail to call and see them, as we have just received a carload.

We don't claim that these VAPOR STOVES will ever take the place of the "GARLAND" STOVES OR RANGES, as that would be an impossibility; but we do claim that they will be a blessing to the tired mother, who is compelled to stand over a red hot stove, and that in a small kitchen, when the thermometer register 100 deg. in the shade during the hot summer months. Now a "JEWEL" VAPOR STOVE will do away with all this. All you have to do is fill your reservoir, touch a match to the burners, and go on with your cocking, and during the cooking of a meal one would hardly know there had been a fire at all, so little heat comes from it. Now is the time to secure one of these HOUSEHOLD TREASURES.

Send for CIRCULARS AND PRICE LIST of these VAPOR STOVES.

LOCAL INTELLIGENCE.

Inquiry for a Missing Man. Chief of Police Jackson received the following letter yesterday from S. A. Hamlin, of Verdi, under date of the 23d:

"This community is a good deal excited over the disappearance of one Joseph Perrault, who took the train here at 11 o'clock Sunday evening last for Truckee, and is supposed to have fallen or been knocked from the train at the bridge at Camp 24—at least the train men the next morning reported that a bat was found on the car ported that a hat was found on the car platform, and Persoult, or whoever took the train at Verdi, was not seen after the bridge was crossed. Searching parties have looked in vain for the body, and although a few drops of blood have been discovered on the rocks under the bridge, no certain indications of a body having fallen can be seen. The unfortunate man may have fallen from the cars, and, being stunned by the fall, have walked into the river and been drowned, though the bridge watchbeen drowned, though the bridge watch-man says he walked over the bridge imme-diately after the passage of the train, and man says he walked over the bridge imme-

All the speakers were opposed to the boycott. All agreed that without Chinese

labor the hop crop this season at least would go unpicked. The pruning of hop vines necessitated so much stooping that white men could not and would not do it.

All efforts to employ them for that purpose had signally failed. Hop-picking lasted but six weeks. They must be picked at that time or lost. White men, women nor boys could not be obtained who would do the work. They have been asked every season.

They have been asked every season. Ten and fifteen cents a hundred more for picking hops have been offered for white help,

but even this inducement would not secure their services. The Chinese labor in the hop-yards, they said, could be depended

Just such a dress cloth as we imagine the Yankee grandmothers of several generations ago wore, is here to-day under a foreign name —Calcutta Homespuns.

We do not know just why this maker (he is an American and his mill is in this country), should have chosen a meaningless foreign title to stand for the homely and substantial virtues of an old-time fabric, but we do know that he has succeeded in making an excellent imitation and withal an admirable stuff.

Badly Hurf.

Last Monday night, between 10 and 11 o'clock, a young man named Frank Ellis applied for help at Mrs. Anderson's saloon, northeast corner of Fourth and M streets, declaring that he was bleeding to death. He was taken inside, made as comfortable possible, and a physician summoned, deep gash on the right side of the face, and bruises on the back of the head and the left arm. The wound on his face bled very profusely, and he was fortunate in reaching good quarters so soon after being hurt. He remained there until yestermorning, when he was taken to the County Hospital. His account of the manner in which he received his injuries was in effect that he called Monday night at the residence of Miss Leonard, 413 M street, to pay a friendly visit, but was met at the door by one of her brothers, with whom he had a dispute, as the brothers did not like the attentions Ellis was paying to their sister, and had told him to stay away. While they were discussing the matter near the door, some one approached and struck him with a weapon of some kind, presumed by him to have been a pistol, on the back of the head, the arm, and finally on the side of the face.

Next day Hickman returned the purse, but Henry did not stop to count the contents. The Dollar Sailor Suits for boys, noticed yesterday, are mentioned again in order that everyone may know about them. It pays to read our daily news.

Just such a dress cloth as we imagine the Yankee grandmothers of several generations ago wore, is here to-day under a foreign name —Calcutta Homespuns.

We do not know just why this maker (he is an American and his mill is in this country), should have chosen a meaningless foreign title to stand for the homely and substantial virtues of an old-time fabric, but we do know that he has succeeded in making an excellent imitation and withal an admirable stuff.

It will make up stylishly—the word seems strange in connection with such a fabric-in street or house costumes having simple dra-

It's hard to tell exactly what the cloth is. It isn't English. It isn't Scotch. It isn't American. We suspect it's all three combined. The style English. The pattern Scotch. The weave American.

If there's anything in the market more effective for simple costumes than this English-Scotch-American stuff, we havn't seen it. Double-width, three patterns, \$1 20.

The Murderer of the Wickershams. SAN FRANCISCO, March 24th.—Two dispatches were received by Chief of Police Crowley this morning, bearing the news of the arrest in Hongkong of Ang Tai Duck, the murderer of the Wickershams. The first dispatch, from James D. Porter, of the State Department, reads as follows:

Washington, March 24, 1886.

P. Crowley, Chief of Police, San Francisco: We informed Senator Staniord to-day of arrest of Ang Tai Duck at Hongkong. Consul urges that papers and agent be sent promptly.

Saloon-keeper Killed in Self-Defense.
FERSNO, March 24th.—Henry Rodgers gave himself up to the authorities this morning, saying he had killed a man in self-defense at the Fine Gold mines y esterday. The man killed was a saloon-keeper mamed Nelsom. Rodgers says a miner had been on an extended spree, and was about to lose his place. He persuaded him to leave the saloon, when Nelson objected to Rodgers doing so, as he was injuring his (Nelson's) business. Rodgers replied, stating the reasons for his action, when Nelson called him improper names, and struck him with a glass, at the same time threatening to kill him. Rodgers backed and Nelson Struck him again, when he (Rodgers) drew his revolver, but at the same instant fell over chair. Fearing that he would be killed he fired at Nelson, who fell dead. Rodgers was lodged in jail to await developments.

Saloon Shooting Affray.

COLTON, March 24th.—An altereation took place to-day in the Palace Hotel saloon, between James McCue and a man by the name of Barns, both of Van Amburg's circus, in which Burns attempted to "slog" McCue. The latter flew a pistol and shot twice at Burns, one ball taking effect in the right cheek, glancing around the cheek bone and coming out at the base of the brain. The wound is not fatal. McCue was arrested.

THE "HOME SEEKER."

The Immigration Association of Northern California is now preparing to issue the March number of the "HOME SEEKER." It is to be enlarged, and fully illustrated with lithographic views of Northern California. It will contain practical information of the resources and advantages of the Northern Counties. All the proceeds of this publication will be devoted to the carrying on or immigration work. We appeal to the business men of the Northern part of the State to give it their advertising support. By so doing, the work of bringing an increase of population to the state will be carried on. At Ogden a copy will be put in the hands of each incoming passenger. In addition to this, several thousand copies will be dis-tributed on the trains leaving Chicago, in order to attract the settler intending to settle in other States and Territories. | Con. C. THE VOLCANO OF KILEAUEA.—The Hono-lulu Commercial Advertiser of the 15th instant, just received by the steamer Mararoa, has reports of threatening changes in the crater of Kileauea. The bottom seems to have droped out, and Halmaumau and New Lake have disappeared. A letter from the Volcano House says that on the evening of March 6th both Old and New Lakes were unusually full and brilliant with Lakes were unusually full and brilliant with molten lava. About 9:30 p. m. a series of earthquakes, forty-three in number, began, lasting until morning. The first three were slight, but the fourth quite severe, and almost simultaneously the fire disappeared from New Lake. About 2 or 3 a. m. the fires of Halmaumau also disappeared.
